

The Right Stuff of Tahoe, Incorporated

Storage Solutions for Geological Drill Samples

EVCO Core Box

Outstanding value for
storing core samples

- Sizes N and H
- Easy to use – no assembly
- Ideal for outdoor or underground use
- UV- and weather-resistant polypropylene

Dovetails with
EVCO Core Chocks
(see page 2 of
this product guide).

Easy to write on

or, even better ...

... use plastic-laminated
labels: readable by people,
bar-coded for computers.

As shown here, a stack of five
EVCO Core Boxes holds up
easily under a 960 pound weight.

EVCO Core Boxes have withstood some of the harshest conditions Alaska has to offer. They have consistently held up through rainstorms, snowstorms, and the rigors of remote logistics. All of our core transported within EVCO Core Boxes has returned to the laboratory in excellent condition.

Aaron Banks, R&M Consultants, Anchorage
